

Your lab has choices, so
what's your specialty?

SMx Specialty Matrix

Get control of your testing with SMx Specialty Matrices

Our journey starts with a discovery process to learn how each SMx will help your lab create control. Then we develop the recipe that will form the basis of an authentic human matrix. The final step is to perfect each SMx through rigorous validation testing.

And we don't add any nasty junk that can cause interference to your assays.

SMx Urine

SMx Serum

SMx Oral Fluid
